

NEW SCINTILLA FIREBOX

Firebox is the latest addition to the Scintilla barbecue family. With its **modern and minimal** design, it is designed to furnish the gardens of the most contemporary houses.

Like all of our products, Firebox can be **assembled and disassembled** easily and includes a practical **food warmer**. The **retractable handle** and the **comfortable wheels** will facilitate the movement of the barbecue.

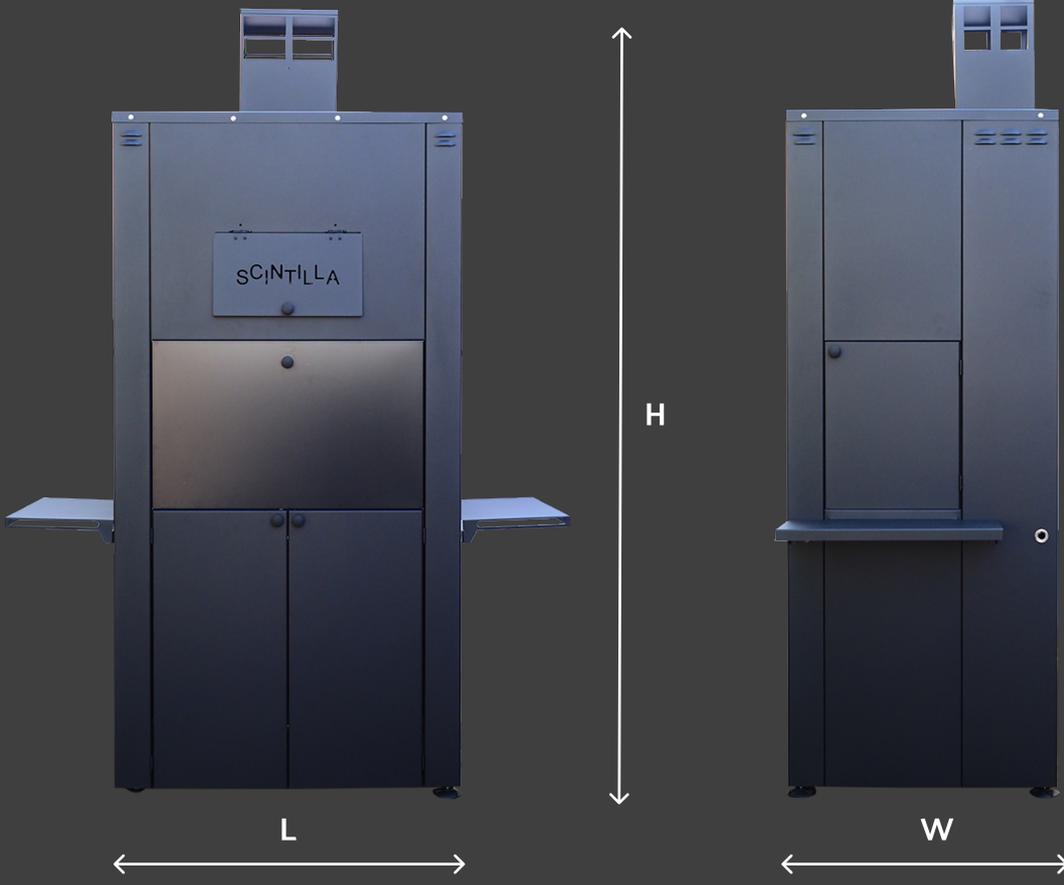

Scintilla Firebox differs from other Scintilla barbecues thanks to the presence of **two side shelves**. But that's not all: Scintilla Firebox has a **lower compartment** where you can organize everything you need.

The oven mouth can be closed with a special door to **preserve the fire** even in the most rainy and windy days.

Entirely in **black painted steel**, Scintilla Firebox will come to you in a practical assembly kit, equipped with **brazier and oven rake**.

Also available in **corten steel**.
